

The Dance Pathway facilitates development in movement and energy through time and space.

Dance educates and enlivens the body, mind and soul. It is a tool that builds confidence and provides an opportunity to express without words.

The Dance program unites students from diverse walks of life and allows them to create and express beautiful, raw and emotional dance pieces.

This pathway explores careers in professional dance and choreography including, but not limited to, theatrical and television productions, dance studios and schools, theme parks and more!
