

The Education Pathway prepares students to navigate college and career opportunities that support families and children. This includes exploring professions such as teaching, social work, pediatrics, counseling and more.

Students in this pathway will gain industry knowledge and can earn college credit while learning from an engaging curriculum, guest speakers, field trips, internships and educational competitions.

The Education Pathway provides hands on experience working with children at local elementary schools, Super STEAM Saturday school and community science nights, while supporting the educational needs of a variety of students at Canyon High School.

To sign up for an Education Pathway course contact your Canyon counselor today!

“The Education Pathway has allowed me to obtain real life experience within educational jobs and has allowed me to learn to teach students in a fun and creative way.”

B. R.

Class of 2020

Sample Four-Year Plan

This represents a sample four-year plan sequencing the required classes to complete the Education Pathway. Students must complete a level 02 & 03 class to be a pathway completer and earn a tassel to wear at graduation. Students should work closely with their counselors to incorporate appropriate honors, IB and AP courses, as well as other graduation and A-G required courses.

Course Type	9th Grade	10th Grade	11th Grade	12th Grade
Education	Career Focus Education	Child Development	Careers in Education	STEM Teach and/or Professional Internship

Education Pathway Course Descriptions:

Career Focus Education (01): Explores college and career opportunities in the field of Education and Family Services.

Child Development UC-G (02): Students study and explore the healthy physical, socio-emotional and cognitive aspects of human development from conception to early adulthood.

Careers in Education UC-G (03): This course prepares students for a career as a teacher. Students will learn classroom management, instructional strategies, lesson planning and more. As a part of this course, students will apply these skills in a paraprofessional internship experience at a local elementary or secondary school.

STEM Teach - Science (03): Students create and design a variety of STEAM (Science, Technology, Engineering, Arts, Mathematics) lessons and teach them to local elementary school students in a classroom setting. Students will also participate in the OCMaker challenge at Chapman University and the Ducks S.C.O.R.E First Flight event at the Honda Center.

Professional Internship (03): Allows students to apply academic knowledge and demonstrate technical 21st century skills in a workplace setting. Students will prepare job readiness documents and will interview at an assigned site prior to interning with a local Canyon Business Partner.
